## Wilson Biochar Associates Biochar Kiln Rentals and Sales

### Kiln Rentals

- Kilns for rent are 40 cf capacity kilns
- Kilns dimensions are 5 ft across by 2 ft high and weigh about 180 pounds each
- Pickup and delivery charges are separate and based on mileage
- First time rentals must also pay for a minimum of 2 hours of training at \$75/hr
- No training session will commence without a reliable water source and shovels for fire safety provided at the site

Daily Rental cost is \$30/kiln

Pickup & Delivery cost is \$1.50/mile

***Pay in advance or upon delivery before work starts***

### Example

First time rental of 2 kilns for 2 days at a location that is 15 miles from Wilson Biochar Associates facility at 9665 Takilma Rd, Cave Junction, Oregon

Kiln rental cost: \$120

Training cost: \$150

Pickup & Delivery cost: (60 miles)(\$1.50) = \$90

Total cost: \$360

Use of the two kilns for two days with appropriate (dry) feedstock will produce approximately 4 cubic yards of biochar. Purchase of this amount of biochar delivered to your site would cost approximately \$400/cy. You will save about \$1,240 and you will safely dispose of burn piles without generating much smoke.

### Kiln Purchases

We have two sizes available:

- Forestry Kiln – 40 cf capacity - \$950 (\$475 deposit – non-refundable)
- Backyard Kiln – 24 cf capacity - \$650 (\$325 deposit – non-refundable)

### Ordering info

- Kilns take approximately 4 weeks to manufacture
- Non-refundable deposit required is half of purchase price
- Kilns can be picked up at Wilson Biochar Associates or can be delivered for charge of \$1.50/mile.
