

Intensive Biochar Workshop at Menoken Farm

April 15-17, 2019

Monday 12:30 pm to 5 pm;
Tuesday 8 am to 5 pm;
Wednesday 8 am to noon

Menoken Farm

1107 171st St NE
Menoken, ND 58558

- Join biochar expert Kelpie Wilson of Wilson Biochar Associates to learn how charred biomass (biochar) can increase soil carbon and regenerate soil while improving productivity.
- Get hands-on instruction on how to make biochar on the farm with tools you already have.
- Learn how to use and apply biochar and hear from practitioners who are already doing it.
- Be part of a brainstorming session to share ideas for biochar systems that can enhance crop production, tree health, livestock health and manure management.
